San Clemente, CA 92674

Estimate for Web Site Development & Internet Professional Services

Internet Development	
Transaction	Amount
Add a new section named Bulletins & Update to the original website and populate it with the missing ASP drawings and the alternative road plans.	\$300.00
Develop a secure section of the website to host documents for the project team to access. The initial webpage page will include a "project status report" section. This estimate includes adding the first round of status reports, creating the secure environment and the development of the first page.	\$500.00
Total:	\$800.00

Content and Site Design - The current website design and layout will be used. Kim Catalano will provide the web site content (verbiage, documents, etc.).

NETINSCO offers Internet Professional Services to maintain and further develop the Lancaster web site at the rate of \$45.00-\$75.00 an hour depending on the service provided.

This is an estimate for Internet Professional Services. The final amount due may be more than the estimated total due to new requirements and requests that are presented during development. NETINSCO will stay in communication with Kim Catalano (project manager) as the project evolves to evaluate the development costs on the web site project relative to the estimate. Payment is due immediately upon delivery of the contracted work.
